**Doyon, Limited Class B Shareholders to Receive 7(i) Distribution**

*Fairbanks, Alaska* – Doyon, Limited announced a distribution of \$15.93 per share to all Class B (At-large) shareholders. The distribution will be mailed or direct deposited on May 8, 2013.

Class B settlement common stock was issued to original enrollees of Doyon, Limited in 1971 who did not enroll to a village corporation. Since the Class B shareholder is not enrolled to a village corporation, they receive the 7(i) distribution directly. The 7(i) distribution for Class A shareholders is sent to their village corporations. Class C, D, and E shareholders do not receive this distribution nor can their shares be switched to Class B stock.

The amount of 7(i) distributions varies depending upon the natural resource net profit of the ANCSA regional corporations. Doyon receives money from other regional corporations throughout the year. Doyon keeps half the money and deposits the other half in an interest-bearing account. That money is then distributed to Class B (at-large) shareholders and village corporations in May.

Headquartered in Fairbanks, Doyon, Limited has more than 18,700 shareholders and was established under the 1971 Alaska Native Claims Settlement Act. Doyon, one of the top 10 Alaskan-owned companies, is also the largest private landowner in Alaska and one of the largest in North America. Its mission is to continually enhance its position as a financially strong Native corporation in order to promote the economic and social well-being of its shareholders and future shareholders, to strengthen its Native way of life, and to protect and enhance its land and resources.
