FOR IMMEDIATE RELEASE

Anchorage, Alaska – Today, Doyon Emerald and Alaska Anvil announced they will expand their existing strategic alliance and merge their respective Alaska engineering and consulting operations to create **Doyon Anvil**, headquartered in Anchorage, Alaska.

This new joint venture is created to better serve clients within Alaska. **Doyon Anvil** services will include full service multi-discipline engineering and procurement, process safety/risk management, project management, and construction field support.

Werner Plagge will serve as Doyon Anvil's President and General Manager. Mr. Plagge has worked for Anvil Corporation for 20 years and led the strategic alliance effort with Doyon Emerald.

Doyon Anvil brings years of combined engineering and consulting experience and a thorough knowledge of the needs of Alaska-based clients. **Doyon Anvil** will provide an exceptional level of value to those clients.

Doyon and Anvil have very similar corporate cultures with complementary experience and values. Both companies focus on developing long-term relationships with their clients and their employees. Their missions are directed toward providing quality services and continually enhancing their position as financially strong companies that provide stable and rewarding careers for their employees.

Doyon Emerald is the engineering arm of Doyon Limited, the Native regional corporation for Interior Alaska. Doyon Limited has more than 18,700 shareholders and was established under the 1971 Alaska Native Claims Settlement Act. Doyon is one of the top 10 Alaskan-owned companies.

Alaska Anvil Inc. is a wholly-owned subsidiary of Anvil Corporation a 100% employee-owned corporation. Since 1971, Anvil has provided full-service engineering, procurement, and project management services throughout Alaska, the western United States, Rocky Mountain region, and Western Canada.

For more information about these companies, please visit their websites: www.doyon.com or www.anvilcorp.com.
